Issues Concerning the student of IX

- ❖ A breakthrough program for IX students
- ❖ One major requirement to clear IIT-JEE & other Engineering Entrance Exams - is a strong understanding of fundamentals and a high level of IQ.
- ❖ It is also imperative for a student to excel in X board exams so as to make him / her eligible for science stream in class XI—which is a pre-requisite for pursuing engineering as a career.
- ❖ Most students rush past the IX and X classes, concentrating only on the immediate objective of a high score in the board exam and start preparations for IIT-JEE only from class XI onwards.
- ❖ The way Science and Maths is taught at IX & X standards, it does not help a student to prepare for IIT-JEE, Science Talent Search Exams (STSE) or Olympiads.
- ❖ As a result students tend to ignore competing in and preparing for exams like STSE, Olympiads etc. – not realizing that these exams give him / her the much required exposure to the world of competitive exams, in addition to all the glory they bring along.
- ❖ There is a quantum jump in the level of difficulty of subjects for students in Class XI as compared to Class X.
- ❖ The students in any case have to struggle to cope up with Class XI syllabi, add to that IIT-JEE / competitive exams preparation with absolutely no exposure to competitive exams, the job becomes much more daunting.
- ❖ Therefore it is essential that a student develops a strong foundation for IIT-JEE / Medical Entrance / competitive entrance exams while in Class IX and X only – enabling him / her to perform at an optimum level in class XI / XII as well as IIT-JEE / Medical Entrance Exams.
