

COVID, FIITJEE FEE POLICY AND HELP FOR THE AFFECTED FAMILIES – FAQs

1. **What discount or fee benefit has FIITJEE extended to students / parents?**

We could foresee in November 2019 how COVID may affect the lives of people physically, emotionally and financially. We rolled back the 10% increase in fee. Further we have not increased the fee next year and also not increased the fee this year. This means our fee should have been 33% higher than what it is today if COVID was not there. Or we can say the fee being charged from students is after a discount of ~24.8%.

2. **Now since you are teaching online, your costs must be much lower. Therefore, FIITJEE Fee must be much lower.**

From Offline (in classroom) to Online, the only difference is classroom infrastructure. We cannot do away with classroom infrastructure as Offline classes will start if not this year then next year. Since online classes cannot compare with the offline classes in effectiveness in learning, we need to be ready with infrastructure all the time. Whenever the situation is near normal, we will start in person classes.

Besides, in case of online classes the time devoted by the teachers is almost double of offline classes. Therefore, our cost of services has increased significantly in case of online classes. We could have doubled the tuition fee to meet the increased expenses but we have not done so. Further, as written above we have not increased our fee for three sessions continuously. Overall, this is 50% savings for every student.

3. **What support are you giving to students who have lost earning parents?**

FIITJEE is committed to support the students who have lost their parent(s) to the COVID-19 pandemic. Following are the benefits / concessions, in consonance with the respective situation given below

Situation 1 : Student who has lost both the parents due to COVID-19 after March 2020 or lost the only parent (other parent had earlier passed away or in case of a single parent).
